1 DECO LED SERIES

ONE SERIES

Features:

- Line illumination features a sleek design that is both minimalist and infused with a sense of technology
- Unlimited customization: shade shape, material, color, and lighting design tailored to vision
- High borosilicate glass offers unparalleled clarity and stylish design
- Clever safety design allows it to be used with open lampshades
- Using a slot structure for fixation to ensure the light source is centered, avoiding ghosting

BURGEON SERIES

Features:

- The design features no brackets or cluttered wires inside, resulting in a cleaner appearance
- Unlike traditional flexible lamps, it emits light from the bottom to the top, with the light area no longer restricted by the glass opening size, allowing it to match the shade's inner diameter
- High borosilicate glass offers unparalleled clarity and stylish design
- Unlimited customization: shade shape, material, color, and lighting design tailored to vision

RN LED LAMP

**INTERNATIONAL DESIGN PATENT
INTERNATIONAL PATENT FOR UTILITY MODEL
INTERNATIONAL INVENTION PATENT**

Features:

- Superfine filament performance, closest to Edison carbon filament lamp
- High-end glasses adopted for envelope
- DIY structure realizable

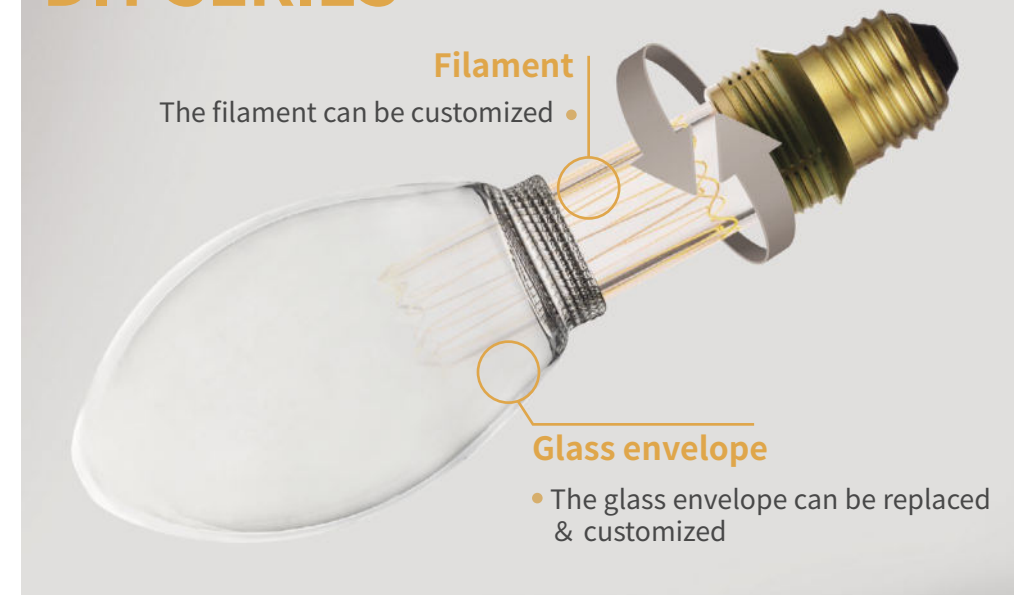

Advantages:

- Mature, reliable and multi-functional with the SMD technique
- Soft and eye-friendly illumination
- Customized filaments and glass envelope
- Glass envelope resistant to dust, stain and impact and more glossy with varieties of styles and colors

After half a year of lighting under the same conditions.

DIY SERIES

RN MINI

NS LED
SERIES

Features:

- Compact size: Its compact design allows for easy integration into any lighting fixture
- Thread structure: Convenient for installation and subsequent lampshade attachment
- Transportation safety: Its sturdy build and durable materials ensure that it arrives intactly
