1 TABLE LAMP

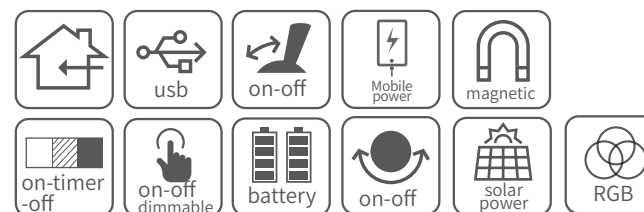

Table lamps can come in a variety of shapes, sizes, and styles, ranging from traditional to modern designs. they can be used for ambient lighting to create a warm and cozy atmosphere in a room. Some table lamps allow you to adjust the brightness level or color temperature of the light to suit your needs.

PORTABLE TABLE LAMP

Portable lamps come in different shapes and sizes, including desk lamps, floor lamps, and table lamps. They are often used in situations where a fixed light source is not available or where additional lighting is needed, such as in outdoor settings, during power outages, or for workspaces that require flexible lighting options. Some portable lamps also feature adjustable brightness levels or color temperatures, making them versatile tools for a variety of activities.

Euclid

Inspired by the golden ratio, we developed this lamp called "Euclid", the top diameter to maximum diameter ratio is about 0.68, with the maximum diameter being separated by a metal ring to form a gold dividing line. The whole lamp is concise and elegant.

PENDANT LAMP

Pendant lamps come in a wide variety of styles, shapes, and sizes, ranging from small and simple to large and elaborate. They can be used for general lighting purposes or as a statement piece to enhance the decor of a room. Pendant lamps are commonly used in dining rooms, kitchens, living rooms, and bedrooms, but they can also be used in commercial spaces such as restaurants and hotels.
